PERSONAL PROJECTS

Exane
It is a match 3 game where you navigate through different maps with a pirate style design.
Each layout can evolve, forced by game design, or the choice of the user.
Tech stack : Haxe - Golang - NodeJS - ScyllaDB

Stories
It transforms every evening into a enchanting moment by sharing a captivating new story with your children.
It offers you access to an array of endless tales, with a fresh one awaiting you every day.
Tech stack : Haxe - NodeJS

VOLUNTEERING

AFEV,
(2006 - 2007)
Afev (Association de la fondation étudiante pour la ville) is a French association created in 1991.
Its objective is to mobilize volunteer students in actions of solidarity and support for education in working-class neighborhoods.

FFMC,
(2010 - 2015)
La Fédération française des motards en colère (FFMC) is an association under the 1901 law intended to bring together users of two or three-wheeled motorized vehicles.
Its objective is to develop the practice of this means of transport and to defend its users.
It acts in the field of road safety by initiating communication, prevention and training actions, to improve knowledge of the danger, the awareness of different road users as well as the spirit of responsibility and mutual assistance of bikers.
